SUBJECT: Initial Statement of Water Diversion and Use for Camp Creek

Dear Ms. Evoy:

The El Dorado Irrigation District (EID) respectfully submits the enclosed Initial Statement of Water Diversion and Use for Camp Creek.

EID diverts water from Camp Creek via the Camp Creek Tunnel to Jenkinson Lake. This direct diversion right was originally associated with EID's Crawford Ditch and dates to 1851. The maximum diversion rate is 12.5 cubic feet per second and the season of diversion is May through October. As indicated on the Initial Statement of Water Diversion and Use, the purpose of use of this water includes domestic and municipal consumption, industrial, recreational, irrigation, wildlife and aquatic habitat enhancement, and system operations uses.

Since 2002, the District has been reporting its diversion and use pursuant to this pre-1914 right to the State Board as part of its Licensee Reports for Water Rights Licenses 11835 and 11836. We plan to continue to do so in the future, while also submitting Supplemental Statements specific to this right.
